PROJECT TITLE:
VerifiNews - SDG 16

TUTORIAL SET:
2SE2

INSTRUCTOR NAME:
Mr. Nelson

Name	Matric no.
MOHAMAD KHAIRI HAFIZI BIN MOHD NAZRI	A214592

The Problem: The rapid spread of misinformation and "fake news" on social media in Malaysia causes public panic, financial scams, and social instability.

Why it matters (Impact): Citizens lack a centralized, reliable mobile app platform to quickly verify viral claims, leading to the sharing of unverified information that can harm communities and individuals.

The Solution: VerifiNews is a mobile application that allows users to instantly search for viral news, check its verified status (Sahih/Palsu), read the actual facts, and actively report suspicious news directly to a community moderation queue.
